**GAS MALAYSIA AND JOHOR PLANTATIONS JOIN FORCES
TO BECOME A PIONEER IN GREEN GAS
ADVANCING SUSTAINABILITY FOR A BETTER FUTURE**

JOHOR BAHRU, 13 NOVEMBER 2023 – In line with the national energy transition agenda, Gas Malaysia Berhad's (Gas Malaysia) wholly-owned subsidiary, Gas Malaysia Virtual Pipeline Sdn Bhd (GMVP) conducted a formal document exchange ceremony with Johor Plantations Berhad (Johor Plantations) during the Asia Pacific Climate Week 2023 (APCW 2023) in Johor Bahru. The ceremony was witnessed by YB Tuan Nik Nazmi Nik Ahmad, Minister of Natural Resources, Environment and Climate Change, YAB Datuk Onn Hafiz Ghazi, Menteri Besar of Johor and Mr. Niclas Svenningsen, Manager of Climate Action Outreach, United Nations Framework Convention on Climate Change (UNFCCC).

Prior to the document exchange ceremony both GMVP and Johor Plantations formalised their commitment by signing a gas purchase agreement. Under this agreement, GMVP will procure biomethane from Johor Plantations with an annual contract quantity of 250,000 MMBtu, to be injected into Gas Malaysia's Natural Gas Distribution System (NGDS) network. The biomethane will be sourced from Johor Plantations palm oil mill located in Sedenak, Johor Bahru.

The document exchange was formalised in a handover ceremony where Gas Malaysia was represented by Group Chief Executive Officer, Encik Ahmad Hashimi Abdul Manap while Johor Plantations was represented by Managing Director, Encik Mohd Faris Adli Shukrey.

This green gas venture embodies the steadfast commitment by both parties towards harnessing renewable energy and actively participating in the advancement of a greener future.

At the document handover ceremony, the Group Chief Executive Officer of Gas Malaysia, Encik Ahmad Hashimi Abdul Manap said, "Forming strategic partnerships with like-minded organisations is crucial for a sustainable long-term growth. We are honoured to collaborate closely with our business partner, Johor Plantations. Our firm belief in the future of renewable energy underpins this effort, aligning well with our recently launched business sustainability plan that was developed to support the National Energy Transition Roadmap (NETR)."

Gas Malaysia's business sustainability plan is designed to be holistic and is anchored on four pillars which include advancing environmental sustainability, strengthening business delivery, fostering people-centric organisation as well as enhancing governance and transparency.

"As a responsible corporate citizen, we place significant emphasis on the imperative of sustainable development, a commitment that holds heightened significance in light of our role as an energy solutions provider. In line with our aspiration, we are committed to integrate sustainability initiatives into our business operations and aspire to be a pivotal contributor in advancing cleaner and more efficient energy solutions. Our main focus is to play a substantive role in supporting the government's initiatives to address climate change," he said.

-Ends-

About Gas Malaysia Berhad

Gas Malaysia Berhad, a member of MMC Corporation Berhad, was established on 16 May 1992 to sell, market and distribute natural gas as well as to construct, operate and maintain the Natural Gas Distribution System (“NGDS”) within Peninsular Malaysia. Gas Malaysia is licensed under the Gas Supply Act, 1993 (“GSA”) by the Suruhanjaya Tenaga (“ST”), with the approval of the Minister, to supply and sell reticulated natural gas in Peninsular Malaysia. On 15 December 2000, Gas Malaysia was granted the licence to supply and sell reticulated Liquefied Petroleum Gas (“LPG”). This licence further expands Gas Malaysia’s business in the supply of reticulated LPG to commercial and residential sectors within Peninsular Malaysia. Gas Malaysia currently operates and maintains over 2,800 kilometres of Natural Gas Distribution System network across Peninsular Malaysia, supplying natural gas and LPG to over 1,000 industrial customers, about 1,900 commercial customers and over 21,000 residential customers.
